ŠKODA Fabia - Accessories

The ŠKODA Fabia and Fabia Combi cars are driven by people with various professions and hobbies – young couples, families with children, active sports-oriented people as well as those who value comfort above all. Naturally, each of them has different needs and specific requirements for their car.

This is where the **ŠKODA Genuine Accessories** offer a solution. In our range, which is essentially an extended range of the extra equipment, you will find various products including spoilers, alloy wheels, radios, navigation systems, roof racks and so on. You can also choose from a wide range of child safety seats for children of all age groups. All our products have been approved by ŠKODA Auto so with them you choose maximum safety and reliability.

CITY CRASH TESTED TECHNOLOGY The City Crash is a method of testing genuine accessories products that can be fitted to the vehicle's body, such as roof railings, transverse roof racks and other transport systems including boxes, bicycle, ski and surfboard carriers etc.
Method: A section of the body is fitted to special skids, which are travelling at a speed of 30 km/h. At the moment of the simulated collision, the force reaches between 9 and 12 G's and lasts for 80 ms.
Evaluation: In order to successfully pass the City Crash test, none of the transported objects may get detached from the body, which demonstrates that the safety of both pedestrians and other vehicles in real traffic is not endangered by the product.
